- Conceal unsightly cables.
- Easily adjust the height of your furniture.
- Hardware included.
- Tempered-glass shelves are strong and safe.
- Works with sheet rock, wooden studs and concrete.
- Great for DVD players, cable boxes and game consoles.

Sanus on-wall component

Introducing the SANUS on-wall component single accessory shelf. Featuring a slim profile, this shelf mounts directly under wall-mounted flat-panel TVs for a sleek, streamlined look, and its thick tempered-glass shelf. The large center column features a cable management system to conceal cables and wiring, creating a clean and organized appearance. The SANUS on-wall component easily mounts to sheet rock, concrete or wooden studs, and micro-adjustments ensure the shelf is always at the perfect height. If additional shelving space is required, combine multiple SANUS on-wall component units for a customized solution.
