

# D.I.Y. Storage Shelf (White coated)

1500 x 760 x 380mm

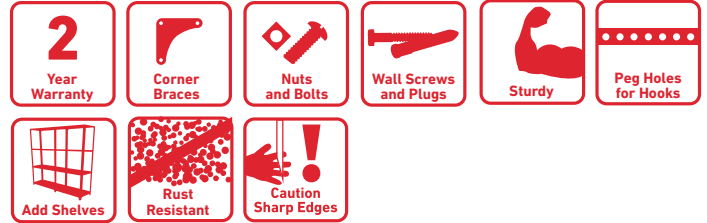

Product Code: BPS15/381W

Barcode: 6002844006631

- Bring order to your Garage, Workshop or Storeroom

- Easy to assemble

## The Shelf unit

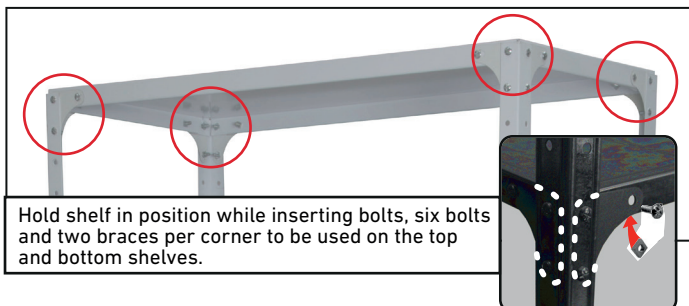

Bring order to your garage, workshop storeroom and other areas where you'll need shelf space.

Care should be taken in general as the units have sharp edges when adding them to a shelf unit.

## Assembly tips

Join Add-on shelves with ease for more shelf space. For added sturdiness and safety, fasten the shelf to a wall using the 2 wall bolts and plugs supplied.

Ensuring that bolts, lock nuts and support corner plates are comfortably tight throughout the entire shelving unit will make it more sturdy.

Hold shelf in position while inserting bolts, six bolts and two braces per corner to be used on the top and bottom shelves.

## Cautions

Care should be taken in general as the units have sharp edges when adding them to a shelf unit. Avoid packing heavy things on the top of the shelf unit as this will make it top heavy and may cause it to fall over. Mounting the shelf unit against a wall or other solid standing surface may prevent this from happening.

## Technical information

### Specifications:

Shelf dimensions: 1500 x 760 x 380mm
