300W Pure Sine Wave Inverter 12V DC to 230V AC

Product Code: FBI300P Barcode: 6002844062682

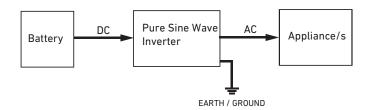

PRODUCT DESCRIPTION

This inverter converts DC power from a battery into 230 Volt AC "true sine wave" power which is identical to utility power which runs pumps, fans and motors quieter and cooler and more efficiently.

300 Watts of continuous output power and a compact design, makes this unit ideal for running any of the following: TV's, stereo's, laptop's, small PC's, chargers and many other home appliances as well as sensitive electronics or appliances with motors in them.

TYPICAL APPLICATION

Caution! Always connect the battery first and then the inverter.

DO NOT place anything between battery cable ring terminals and battery terminals. The terminal stud/bolt is not designed to carry current. Apply Anti-oxidant paste to terminals after terminals have been torqued.

- Reliable, proven design.
- Continuous operation.
- High power, heavy duty.
- Remote ON/OFF switch.
