

Wireless Digital Door Chime

Product Code: **BDBWD1**
Barcode: 6002844007140

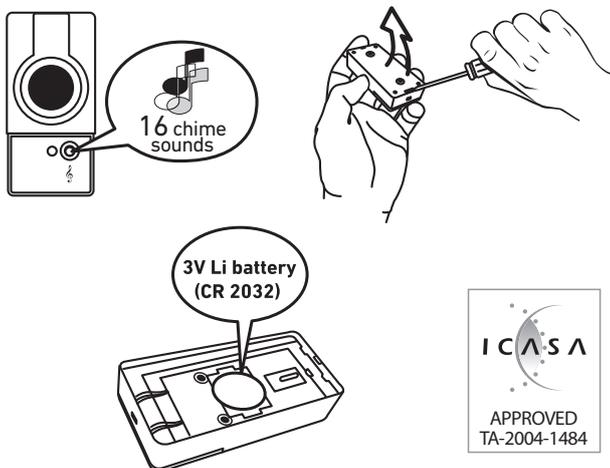

- Interference free operation
- 16 different programmable sounds
- 45m signal range (free to air)
- ICASA Approved
- Easy to Install

Wireless Door Chime

The Ellies Wireless Door Chime's completely wireless design makes it easy to set up and install. It has a free to air range of up to 45m and includes two receivers, meaning that the door chimes and transmitter can be placed apart without affecting functionality. It is also programmable with 16 different tunes, allowing you to customise the chime to suit your lifestyle.

Diagram

First time operation

After battery installation on the push button and door chime units, press the push button once and it will generate a new operation code randomly and send a wireless signal to the door chime receiver. The receiver will sound to indicate that the new operation code is registered and memorised.
(Please note, this operation should be done every time when there is no power or when batteries have no more charge left and need to be replaced.)

Battery requirements

Remote control - 1 x 3V Li coin battery (CR2032) supplied.
Door chime - 3 x AA batteries (LR6) not supplied.
Mounting screws and high tack tape included.
