

5W Non-Dimmable LED lamp Golf Ball

4000K Cool White

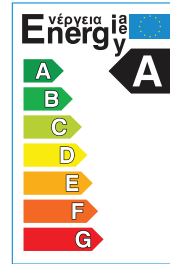

Product Code: FLGG45CE14
Barcode: 6002844061890

5W Non-Dimmable LED lamp Golf Ball

LED lighting products use light emitting diodes to produce light very efficiently. The movement of electrons through a semiconductor material illuminates the tiny light sources we call LEDs. A small amount of heat is released backwards, into a heat sink, thus in a well-designed product the heat is dissipated effectively, allowing a longer lifespan and improving light output. LED lamps are more efficient than both incandescent and CFL lamps.

- Golf ball lamps (Non dimmable)
- High output LED
- High colour rendering index (Ra >82)
- Life at 70% lumen maintenance

TECHNICAL INFORMATION

Specifications:

Base	E14
Wattage	5W
Colour Temperature	4000K
Lumens	320lm
Lifetime	25 000 hours
Dimmable	No
Voltage	220 - 240V
Overall Diameter (Ø)	45mm
Overall Height	89mm

THE PACKAGE CONTAINS

PACKAGE DIMENSIONS

Height (mm)	Length (mm)	Width (mm)	Weight (kg)
183	50	114	0.06
