## DStv HD Decoder 4137 5S / 5U

This single view 4137 model decoder replaces the DStv HD 4 Series 4136 decoder. smaller and more compact

- 2 tuners allows for an even more streamlined and reliable viewing experience.
- First decoder that has the smartcard technology integrated into the decoder.
- It comes with a new remote (model B6) which allows customers to program up to 5 buttons to control their TV and home theatre from one remote.
- Customers with newer installations who have an Explora 2 and smart LNB, will be able to set up XtraView without having to update their installation or needing to run a dedicated cable between the two decoders, as they will communicate via the installation cables.
