- Electronic controlled unlocking
- Up to 450m cable connection distance between units
- Back lit push button

2-Way Wired Intercom / Door Chime

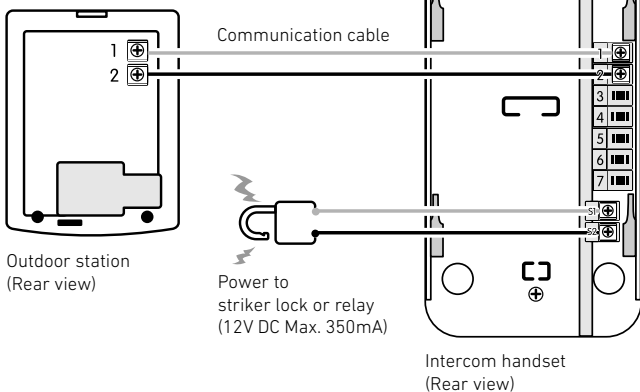

The Ellies Door Phone Intercom is designed to offer you both security and convenience. It's gate opening function allows you to open the gate from inside your house, and with up to 450m cable connection distance between units (extra cable sold separately), the units can be placed well apart without affecting functionality. The push button is backlit for perfect night time display.
