910 x 450mm

Product Code: BP450/2W

Barcode: 600284404 6729

- Increases your existing shelf unit's shelf space

- Rust resistant

- Extra heavy duty

- Nuts and bolts included

The Shelf sections

Add-on shelving is normally used to increase shelf space on an existing shelf unit that was purchased separately and erected. Adding the shelf units are D.I.Y.

Care should be taken in general as the units have sharp edges when adding them to a shelf unit.

Tip

Ensuring that bolts, lock nuts and support corner plates are comfortably tight throughout the entire shelving unit will make it more sturdy.

Cautions

Care should be taken in general as the units have sharp edges when adding them to a shelf unit. Avoid packing heavy things on the top of the shelf unit as this will make it top heavy and may cause it to fall over. Mounting the shelf unit against a wall or other solid standing surface may prevent this from happening.

Note: Maximum load of **50kg** per shelf panel.
