

# Loop Amplifier Indoor Digital Terrestrial TV Antenna

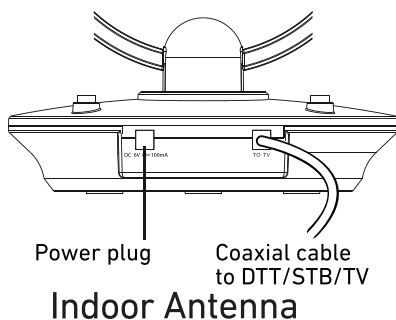

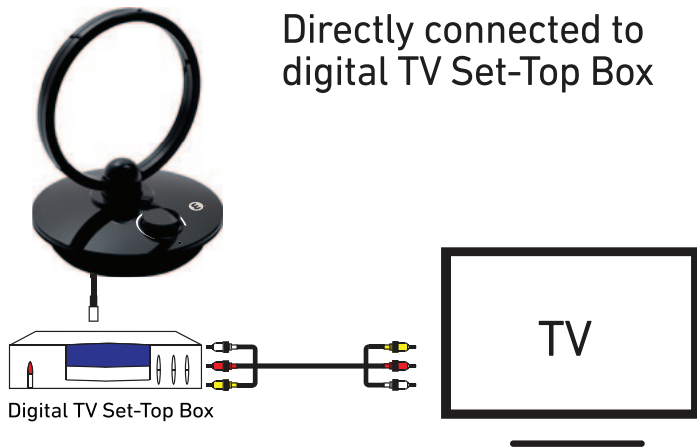

Product Code: AADTT969  
Barcode: 6002844060497

## THE AADTT969 AERIAL

This is a specially designed UHF antenna for digital terrestrial TV broadcasting reception (DTT). It is the best solution for home reception and digital portable TV reception. The antenna is an active antenna that can be connected directly to your Set-Top-Box (STB) which can be powered via the coaxial cable.

## KNOWING YOUR AERIAL

- Supports all digital signals in UHF band
- Adjustable loop and gain switch for the best possible reception
- LED power-on indicator
- SMD circuit technology design
- Stylish and compact design
- Built-in high gain and low noise amplifier
- Horizontal or vertical for the best possible reception
- Compatible with multiple terrestrial signals
- Filter - blocks out VHF + GSM + FM radio signals

## TECHNICAL INFORMATION

Specifications:	
Frequency Range:	470 - 800MHz (UHF)
Gain:	30dB Max.
Output Level:	100dB $\mu$ V Max.
Power Supply:	Powered Via DTT/STB DC5V 40mA
Out Impedance:	75 $\Omega$
Noise Figure:	$\leq$ 3dB
RF Coaxial Cable Length:	1.5m

## THE KIT CONTAINS

1. Antenna main unit with 1.5m coaxial cable

## PACKAGING DIMENSIONS

Height (mm)	Depth (mm)	Width (mm)	Weight (kg)
